Reporter Uncovered Irregularities.

The first steps in the investigation of East St. Louis' municipal graft were taken last April, when a Post-Dispatch reporter, acting on knowledge that the city was in debt several hundred thousand dollars, and rumors that there had been graft among city hall offi-dals, began a close scrutiny of the city's expenditures for the years 1911 and 1912.

One of his first discoveries was that the warrants and vouchers covering ex-penditures amounting to many thou-sands of dollars were missing from the files in the Commtroller's office, and other expenditures of many thousands of dollars because of the lack of busi-ness system in conducting the financial

ffairs of the city. He found that instead of is rants to the persons to whom the city owed money, that in a great many inses the warrants were issued to the City Treasurer and that there was noth-ing on the records of the city which would reveal the person who ultimate-

ly received the money.

Warrants Not Indorsed.

He found that hundreds of warrant irrespective of whether they were isthe claims on the city, were not in-sed and there was no record to show other the money had been received

whether the money had been received by the person to whom it was due. The system of business was one in which the Treasurer kept private books on official funds. Almost as often as otherwise, he paid out money and the claim was met by the issuance of a warrant to him to reimburse him for the money he had paid out.

Although the reporter had access to the records of the Comptroller's of-

fice, he was not given access to the records of City Treasurer Gerold. which or, Frank Keating, in May, although the law requires that a retir-ing official shall deliver all records and ds of his office to his successor within three days. Keating has never imit expired May 9.

The Post-Dispatch investigation, revealing extensive illegal deal-between city officials and members of the City Council and the city showed that Councilmen had voted appropriated to themselves \$400 take a pleasure trip to Buf-N. He declared that in his opinion it would be better to let the investiga-

Post-Dispatch Saved Records.*

The exposure by the Post-Dispatch of the plan of the officials to destroy all first-hand evidence of expenditures resulted in a preservation of the documents, and enabled the State's Attorney to use them before the grand jury as evidence on which to obtain indict-

Webb Gives the Post-Dispatch **Credit for Exposing Corruption**

TATES ATTORNEY CHARLES WEBB in an interview with a Post-Dispatch reporter Wednesday, thanked the Post-Dispatch for its work in uncorthing corruption in East St. Louis icipal affairs. He said:

I cannot express in too high terms the thanks I owe to the Post-Dispatch for its assistance to me in this investigation. The good citizens of East St. Louis should give to the Post-Dispatch a vote of thanks, because I do not believe that this investigation could have been successfully carried out if we had not had the aid of that fearless newspaper.

It has conducted a most exhaustive investigation of municipal affairs, and it has disclosed a most amazing situation of graft in the handling of the people's money. It has given to me all the details it found, and has supplied me with the names of witnesses to corroborate its findings. The information in many cases has led to the uncovering of other witnesses, who have supplied evidence of irregularities which were so cunningly covered up that for a time they seemed to baffle all our efforts to get the exact facts

In its report of conditions the Post-Dispatch has at all times shown itself ready to provide my office with all the information it had. It has not attempted to shield any person, nor has it attempted to east suspicion on any person unless there was the evidence to support the suspicion.

There has been what seems to me a concerted effort to induce the grand jury to shorten its investigation. There has been a determined effort to hamper the work of the grand jury. However, its members have stood firm to the line of their duty and have uniformly resisted the influences which were at work.

I undertook this investigation with the firm intention of prosecuting it to a finish, that if there were guilty persons here they might be punished. These indictments returned today mark only

How to Darken

Grav Hair

By a Specialist.

A very satisfactory preparation which darkens gray hair and acts as a corrective agent for dandruff and other diseases of the scalp can be made at small expense and in your own home by dissolving a small box of Barbo Compound in 7 ounces of water and then by adding an ounce of bay rum and a quarter ounce of glycerine. Any drug store can furnish these ingredients. This is to be applied once a week until the hair is sufficiently darkened, then every two weeks to keep the hair soft and glossy and the scalp in a healthy condition. It may be used with equal success in darkening the beard. This is a preparation that gives splendid results, both as a hair darkener and a remedy for all scalp disorders, and is well worthy of a trial. You will find it far superior to the ordinary store or proparations and mark the search made and the search made and the search week less averages. far superior to the ordinary store preparations and much less expensive —ADV.

John A. Hennessy, who acted as personal investigator for Gov. Sulzer, has injected himself into the city cam paign as one of the anti-Tammany orators. In a speech late last night he charged that McCall acted as Murphy's nouthplece and once told him "to carry Sulzer the last word for Murphy o what would happen if Sulzer did no nation he had made." McCall placed his hand over his mout for an instant, as if to suppress a smile, half opened his mouth to say, "Well" and then as if on reconsideration, disssed the matter by shaking his head.

It was not until early today that riends of the deposed Governor allowed Sulzer to go to bed, so determined were they to acclaim him a hero or martyr For nearly three hours after his arrival n the city a big crowd of his admirers riumphal night tour through the East eral short speeches that "the bosses" had removed him because he fought for the people, instead of for them, and pleaded for a seat in the Assembly that ha might renew his fight. The demon stration in his behalf moved the ex Governor to tears, and he described his acclaim as the greatest moment of his

From the moment his train ar-rived at the Grand Central Station un-til he had completed his tour of the East Side, he never was deserted by growd of wildly enthusiastic admirers, who did not sease their hysterical shouts until he had reached the Broadway Central Hotel at 12:45 and had gone to

When his progress was halted long enough to let him answer the emphatic demands for a speech his hearers let themselves go. Thirty-five girls of the freshman class at Shurtleff College in Upper Alton, who had expected to take part in the annual freshman-sophomore class rush Wednes day and had trained in the symnasius to harden themselves for a struggle, were prevented from joining in the fracas by an eleventh hour faculty order. There are only four boys in the freshman class and a victory by the 35 boy ophomores had been conceded as a mat-

The young women course the scrimmage.

The young women course the scrimmage. The young women expected to don old clothes and help form a cordon around

ST. LOUIS POST-DISPATCH.

Gallery Crowd at Signal Makes Rush for High Priced Seats During Introduction.

By Leased Wire From the New York Bureau of the Post-Dispatch. NEW YORK, Oct. 22.—When Mrs. Emmeline Pankhurst was held up at Ellis Island for two days and then librated through presidential intervention, many New York theatrical managers and press agents said:
"A million dollars' worth of adver-

tising! She'll pack her Madison Square Garden meeting to the doors." Last night, when Mrs. Pankhurst, after all the newspaper talk about her hold-up at Ellis Island and after all the interviews in which it was predicted what she was going to tell about the militant cause in England, took the platform in Madison Square Garden, about 3000 persons were there.

"A flivver!" said the same theatrica folk, who were there to see what was happening. And there isn't any word which describes the meeting more picturesquely or more succinctly. A "fliv-ver!" It was just that. And for the enefit of those who don't know theatrical jargon, a "flivver" means a "bloom er," and a "bloomer" means a failure-

High Priced Seats Usurped.

As has been said, there were about 3000 persons in the brilliantly lighted Garden when the meeting began. They had paid from 50 cents to \$2.50 a seat to hear Mrs, Pankhurst and it was what the theatrical folk call a decidedly top-heavy house—almost everybody was in the galleries. Charles Edward Russell, Socialist orator and writer, act naking one of his best speeches when t some signal which the unobservant isteners didn't get, everybody from the heap seats piled down to the best seats. There were cries of indignation. The folk who had paid the big price object-ed. Was this a suffrage meeting for The Cause, or was it a money-making scheme? Martin W. Littleton, lawyer and orator himself, got up and walked out of the meeting and then sent from his club, across the street, a public let-ter to the press gallery about it.

Suffragettes waved their yellow flags throughout the evening. The band played. The speeches were stirring. Mrs. Pankhurst's address was strong. But the poor attendance and the down flocking of the galleryites effectually "killed" the meeting. Before Mrs. Pankhurst was half through her address the audience was-to use still another theatrical expressinn—"walking out on her." She didn't finish until long after 11 o'clock, and by that time scarcely 1500 persons were left in the house.

Dishonest, Says Littleton Littleton, it appeared, had three of the best seats in the house at \$2.50 apiece. With him, when he en tered them, were Mrs. Littleton and

Note Sent to Mrs. Belmont. The note was sent to Mrs. O. H. P. elmont, Mrs. Pankhurst's American onsor. She did not comment upon it. There were not a great many "kicks" because there was not a large assemplage in the usurped \$2.50 seats, and becuse by far the larger part of the audiorm, where it could hear Mrs. Pankurst. But nevertheless the crowd didn't "stick." It was disappointing to the fol-lowers of the British leader, and it was astounding to those who had witnessed her triumphant entry into the country after her detention.

DUFFY NARROWLY LOSES KNOCK-OUT IN MURPHY BOUT

In Cleverest Exhibition of the Season, Lockport Lightweight Has Big Shade Over Boston Boy.

By Harry S. Sharpe,

Referee Future City A. C. and the Post-Dispatch's Bexing Authority.

TIMMY DUFFY of Lockport, N. Y., outpointed Eddie Murphy of Boston, Mass., last night, at the National Athletic Club, in one of the fastest and cleverest eight-round boxing contests that has been witnessed in uis for some time. Duffy is taller, and has a longer reach, and he ed this natural advantage to good effect. He also is a bit faster than Murphy, and timed his blows better, meeting Murphy's rushes with unerring sim by use of a straight left hand that shot out true as a bullet.

Louis since 1869 has many friends here who will be interested in his statement, he says:

"I have suffered from stomach trouble and nervousness for a long time, I had tried a good many things but nothing seemed to help me much. I heard so many people talking about Plant Juice I thought I would try it myself. I have taken one bottle and the results have been so good that I have come back for some more to continue the treatment, that proves what I think of it. I am feeling better in every way and can recommend Plant Juice as a fine remedy."

The main requisite of good health is pure blood, a good digestion, steady nerves and sound restful sleep. Plant Juice insures all these, it clears the blood of all poisons, eradicates all malaria and billiousness from the system, tones up the digestive organs and puts the stomach into healthy condition, stimulates the sluggish torpid liver into action, corrects constipation and regulates the bowels. It builds up the nervous system, sharpens the appetite and fills you with new life and energy. A course of Plant Juice will do you more good than a vacation. Try it and see for yourself. Get a bottle from the Plant Juice man at Wolff-Wilson Drug Co.'s store, and if it does not help you he will return your money.—

The dead frilling to move it forward or backward at just the right moment, it is probable he would have suffered much more punishment than fell to his lot. Durfy managed to get to him with some, however, that made things lock and for Murphy. In the fourth round the Lockport boxer landed a right clip to the jaw and Murphy would have fall-on to the floor had he not been held against the ropes by Durfy.

THEN, in the fifth round, Durfy hooked a hard left to Murphy housed a raily that brought the crowd to its feet cheering for him, but he was finally out-fought and made to back away at the end.

Duffy started to work again in the seventh round, but before he had proceeded very far he met up with a left way for his jaw that sent him realing half way across the ring. Then he c

Ed Koney, accused of lese majeste in the court of King Huggins, soon will be raded (if the deal hasn't already been nade) to New York for Catcher Wilon, Outfielder Snodgrass and eithe Third Baseman Herzog or Utility Man

Manager Huggins hurried away from St. Louis immediately after the close of the local laugh series and met Manager McGraw of the Giants in Cincinnat where Little Napoleon went to inaugu rate the all-star tour against the White Sox a week ago. PEORIA, III., Oct. 22. HERE has been a vast change in the tone of the big leagues since I first started. Few fights occur between players either on the same clubs or rival clubs now. I recall the time when every clubhouse was the scene of several tough battles each season, and "scraps" on the field between the men on rival teams were common. The old "shellbacks" of baseball argue that this improvement has not advanced the game. I believe it has.

The contention is that players of this type do not pay as much attention to newspaper criticism and are better in a short series where the steady hand and the mind which does not become nervous and shaky is the big feature. But the Athletics stand out to refute this argument. You never hear of any trouble on Mack's club, and I did not notice any display of nervousness during the series. I believe that ballplayers are coming series. I believe that ballplayers are coming into the game younger now, without such ong, rough rehearsals in tile minor leagues, because of the demand for speed, and the ast men are the youthful ones. O'Gorman's Statement Indicates Opposition to Early Passage Is Broken.

By Ware From the Washington Bu-reau of the Post-Disputch. uncement by Senator O'Gorman that believes the administration banking and currency bill will be enacted into aw at this session, and that he will ork to that end, caused much comment official circles today. Those who have followed the course of the bill appeared to see in Senator O'Gorman's statement reason to believe that the opposition to the immediate passage of the bill is broken and that the President will be successful in his fight for White House over the prospects of the

early passage of the bill.

When asked if he agreed with President Wilson's opinion that the passage of the currency bill is assured, Senator Reed of Missouri, who has been regarded as one of the Democratic op-ponents of the bill, said:

"I hope the committee will make unanimous report, and I hope that the report will be agreed to before Nov. 0, so the bill can go to the Senare -s early as possible. I believe that the hearings that the committee has held and the consideration it will give the bill before the report is made will reduce greatly the amount of debate that

Banks would be compelled to call loans and the general sudden movement of tremendous funds would cause a serious condition in the market. This must be remedied.

Croxone Makes Kidney Troubles, Bladder Disorders, Rheumatic Pains Vanish.

If you suffer with backaching kid-ney trouble, have disagreeable bladder disorder, or are tortured with rheuma-tism, stiff joints, and its heartwrench-

tism, stiff joints, and its heartwrenching pains, you will be surprised how quickly and surely Croxone will relieve all such troubles.

It soaks right in through the walls, membranes and linings, neutralizes, dissolves and makes the kidneys sift out and filter away the uric acid and poisons from the blood, and leaves the kidneys and other organs clean, strong, healthy and well.

It matters not how long you have suffered, how old you are, or what you have used, it is practically impossible to take Croxone without results. It starts to work the minute you take it and is guaranteed to relieve you the first time you use it, or cost you nothing.

If you suffer with pains in your back If you suffer with pains in your back and sides, or have any signs of kidney, bladder trouble, or rheumatism, such as puffy swellings under the eyes or in the feet and ankles, if you are nervous, tired and run down, Croxone really will relieve your misery and do it quickly. An original package costs but a trifle, and all druggists are authorized to return the purchase price if it fails in a single case.—ADVERTISEMENT.

Cause of III Health

The startling statement has been made by prominent doctors that in mincases out of ten, people who think they are suffering from neuralgia, rheumatism, pleurisy, heart weakness, indigetion, or other acute forms of disease are also suffering from kidney disease. There are unmistakable signs of kidney disease—pains in the head, swelling under the eyes, dry skin, dull complexion, tired feeling, loss of energy etc. To afford relief you should begin the use of Warner's Safe Kidney and Liver Remedy, which many physicians say is the only remedy that can heal with certainty the frall tubula structures constituting these important organs. It reduces the inflammation builds new tissues, strengthens an invigorates the kidneys and liver an enables these delicate organs to do their work fully and properly. Warner's Safe Kidney and Liver Remedy is made of pure herbs, and contains no danger ous drugs. This is the reason doctor and hospitals use itsexelusively for kidney troubles, and you should begin taking it at once, if, for any reason, you suspect your kidneys are not in a perfectly healthy condition. A free sample of Warner's Safe Kidney and Live Remedy will be sent if you write Waner's Bafe Remedies Co., Dept. 248 Rochester, N. Y.

The Subway Project.

To the Editor of the Post-Dispatch.

Beg to inquire if the editor of the Post-Dispatch has in mind any individual, firm or corporation willing and able to construct a subway on more favorable terms than those proposed in the pendordinance and if the editor is familiar with the substantial support given like matters by the city of New York in order to facilitate such work? Journalism can no doubt, prevent the ting of any ordinance, but is it the part of om to hamper and delay such undertakings

On the subject of "veal and its relation to the pany. cost of living," I noticed several recently aring newspaper articles wherein Mr. Armour nsumption of veal responsible for the city of beef, and accordingly advises public against eating it, as a sure means of conserving the national meat supply. I wonder form of propaganda if it did not yield a money if it has ever occurred to Mr. Armour that anprofit. would be for him to quit killing the aforemen-lioned hapless but responsible (?) "veal?"

Personally, I don't like veal, anyhow.

EAST ST. LOUIS INDICTMENTS.

The news in today's Post-Dispatch of the infour other persons—making 28 in all—marks insurance companies. Fathers and husbe

These indictments are the immediate results of five weeks' investigation of the St. Clair Counmunicipal conditions in East St. Louis, published in June after a thorough investigation. The findings of the grand jury are based chiefly upon the facts gathered by the Post-Dispatch and presented to the State's Attorney and the grand almighty tough on Abraham."

The forces of a great newspaper and its power of publicity directed to public ends were required to originate this work. The co-operation of law officers in directing the labors of the grand jury were necessary to bring the men charged with crime to the bar of justice. Great credit is due Judge Wilten M. Vandeventer for directing the grand jury to its task, and to State's Attorney Charles Webb for presenting the facts and supervising the investigation.

These wholesale prosecutions of officials charged with corrupt acts and their allies is comparable only to the boodle prosecutions in St. Louis to which the Post-Dispatch contributed invaluable service in obtaining facts and witnesses and in crystallizing public opinion in support of then Circuit Attorney Folk.

No greater service can be done East St. Louis than to expose its official corruption and bring the guilty to justice. It is necessary to the safeguarding of public interests.

Counting the empty seats in Madison Square Garden at the Pankhurst meeting, militancy is in a minority in New York.

DOCTORS OF DAMAGED GOODS.

We hope that our neighbors, the Times, the Star and the Republic, will heed the remarks of Mr. Richard Bennett at the City Club. He urged readers of these newspapers to protest against the publication of fake doctors' advertising, such as can be found in our three contemporaries.

It is in no vainglorious spirit of boasting that we call attention to the fact that the Post-Dispatch excluded this class of advertising several years ago. And we don't regret it. Our neighhors will learn that it is good business, to say nothing of ordinary decency, to exclude such advertising, Mr. Francis, Mr. Preetorius and Mr. Roberts should avoid association with Old Doctor Quack, who deceives and defrauds suffering men and women. MEXICO'S SUNDAY "ELECTION."

President and Vice-President of the republic o Mexico are to be chosen next Sunday, Oct. 26, by what is called a "popular election."

Light on what may be expected is afforded by review of the last previous presidential election in Mexico, in 1911, when Madero was chosen. Mexico's population in 1910, officially counted or estimated, was 13,611,712. The total vote cast in of St. Louis people, old and young, 1911 was 20,148. Of the Mexican citizenship it is said: "Seventy-five per cent are illiterate and hour a day, and pay well for it. Suppose we common practice; 24 per cent are eligible but mitting the Mayor to say on what afraid to try to vote; of the remaining 1 per cent, rising almost wholly men attached to the party in power, only a little over one-tenth voted and all the Hoosiers ate one apiece to promote President.

SOCIAL HYGIENE?

Having seen "Damaged Goods" are the mem bers of the Social Hygiene Society satisfied with their work of helping to bring the play to St. Louis, to advertise it as a wholesome means of sex instruction and to put it on exhibition in a public theater?

Do these well-meaning men and women really believe that clean-minded young persons, above the age of 17, will be bettered by an introduction to the fetid atmosphere of not merely the physical but the moral leper. Are they satisfled that a vivid picture of cynical immorality in which practically all men are put under indictment and the rule of caution and the doctor's care is set up as the standard of wise conduct, will cleanse the mind and elevate the ideals of the young?

Is there not a hint of the combination of the mountebank and the reformer in the profits of the theater and the eager seizure of opportunity by Old Dr. Quack and the agents of preventive drugs?

Will the local hygiene society help to keep the tainted mess on the stage by sending it to the next town with the society's approval?

Tango Will Die Out, They Hope Mothers Blamed for Aping Daughters

Leaders of Church Deplore "Feminine Foolishness," but See Remedy in Proper Home Training and a Restored Public Equilibrium.

The "feminine follies of 1913" in dress, dance and drama will soon disappear, and human nature will recover its equilibrium, in the opinion of several bishops of the Methodist Episcopal Church, who were seen by a reporter at the Marquette Hotel soon after their arrival in St. Louis Tuesday evening.

Twenty-four bishops, most of them elderly, sober-minded men, are here to attend the semi-annual meeting of the college of bishops, which Wednesday morning at Union Church Lucas and Garrison avenues. Those seco at the hotel were the advance guard of

"Reversal of home policy has much to do with the trend of affairs," said Bishop Richard J. Cooke of Portland, Ore. He is book editor for the denon nation and is looked upon as an auhority on church literature.

to "feminine foolishness." "The sensible girls of Atlanta-and am glad to say they are in the majority-have given up the Tango and are modifying their styles of dress," said he. "Only recently I overheard conversation between several leading nembers of Atlanta society and it sent patriotic shiver down my back to isten to their criticism of the modern extremes. HE REV. DR. NEHEMIAH BOYNTON of Brooklyn, moderator of the National Council of Congregational Churches, while in St. Louis Tdesday evening on his way to the council in Kansas City, said to a reporter:

"There is an overdone tendency throughout the country to give undue and unnecessary publicity to problems of sex. This will pass by, and the country will recover its modesty, and, while not ignoring facts, will conclude that publicity may go too far in relation to that sort of knowledge which is best taught in private.

"It is a shame that vile plays, calling for suppression by the po-lice, should be offered in New York theaters, when the Shakspeare players are forced to pass by New York for lack of support. It is a shame that the turkey trot should be danced in the Hotel McAlpin. But that is only one side. New York is not Sodom and Gomorrah. Final Prices Show Irregular Declines-Panic on the Bombay Market.

Bombay Market Closed Owing to a Panic.

By Lensed Wire From the New York Bureau of the Post-Dispatch.

NEW YORK, Oct. 22.—The Evening ing Post, in its copyrighted financial review today, says:

"The main cause for the renewed uncertainty and irregularity on the Stock Exchange today, was no doubt the fact that the 'bear account,' which has lately dominated the very professional market, had completed its repurchases, for the time at any rate, during yesterday's sharp advance.

"Otherwise, there was nothing to have made today's stock market any different from yesterday's or from that of Monday.

"Wall street laid stress on the not very cheerful published interview with Charles M. Schwab, regarding home and foreign trade, conditions, and on dispatches regarding financial trouble in India.

"It is perhaps worth while to observe that Mr. Schwab spoke only of the steel trade, with which he is familiar, and that the Bombay dispatches appeared to be taken with more concern in New York than in London.

"But granting this, it must also be noted that the recent perfectly evident set-back in the European steel trade—a result of the year's disturbances in the foreign credit market—would inevitably have some reactiva influence on our own steel market; also, that India may be more or less of a troublesome spot in the finance of the next few months.

"These two factors in the world's situation are not new by any means, and they could hardly have influenced greatly New York's financial markets of today.

Price Movement Lower.

"The price movement here was down-ward most of the day. At the opening the leading stocks showed the price most of the day. At the opening the leading stocks showed two hosses."

Price Movement Lower.

"The price movement here was downward most of the day. At the opening the leading stocks showed such losses as 4 for Reading. 4 for Union Pacific, 14 for Canadian Pacific and for Amaigamated Copper. Then there was a good deal of realizing and the market of showed little rallying power.

"Prices continued to move irregularly during the morning, but around noon there was some recovery and the active stocks displayed a little strength.

"This rally, however, was not sufficient to affect the market in any broad way or to excite any thoroughous support.

"On the advance the standard shares rose 4 to 1 point above the low level. Union Pacific was a weak feature during the afternoon, showing rather pronounced heaviness in the last hour.

"Just before the close trading became very quiet and prices reacted again in some cases to near the low level.

"The copper shares showed some strength in the last hour, but there was little buying of these or other issues.

"Final prices were at general losses for the day. The closing was weak. Government bond issues showed considerable strength, the market displaying a firm undertone.

Corn futures also reflected maniplated cables, but there was good buying in the market after an early dip in sympathy with wheat.

The weather was more favorable for the bulls, owing to lower temperatures increasing the demands for feeding. Oats were firm and higher on rough weather. The Liverpool wheat market was influenced at the opening by the steady American cables and prices were '4d higher to '4d lower than yesterday. Later there was realizing, when prices declined '4d to '4d ower than yesterday. Later there was realizing, when prices declined '4d to '4d ower than yesterday. Later there was post and private reports of glowing prospects in Argentina, which a private cable reporting further light rain in India. Weakness in corn helped the decline.

Liverpool corn opened unchanged, being influenced by the steadiness in America. Later there was heavy general realizing and prices broke 14d. The fact that two Plate cargoes were diverted to Liverpool, where there is already a lack of storage room and talk of large Argentine shipments this week together with favorable European crop prospects and the fact that Plate hold-are are offering freely at a decline caused the weakness.

Mineapolis wheat cars again were light totaling only 2%, against 416 last week and 507 last year. Duluth, 178. against 299 and 756. Winnipeg, 969, against 299 and 756. Broomhall's weekly wheat review, wired to Oswald Graves

or snearson, Hammin & Co., Chicago, sald:

"Pronounced weakness has characterized the market during the past week, with some disposition shown to support at the decline. The weakness was largely attributed to the enormous Canadian shipments and continued heavy Canadian receipts, with the excellent grading of arrivals and the weakness of No. 1 Manitoba on spot here, this being the cheapest wheat in the world.

"The recovery from the decline was the result of lighter American spring wheat receipts. Indian drouth and the tendency toward firmness of all offers of new wheat, with the exception of North America.

vorable weather much of the evident loss will be recovered in acreage.

"The paramount reason for weathess in foreign markets was the result of Rossal supplies and the record Canadian marketing, although world's shipments have been nothing more than normal, considering the autumn months.

"Fears are entertained that Canada is shipping at the expense of reserves, which may be felt later on, and then again there is a strong fact that only two big countries are in a position to ship freely, and this fact is becoming more pronounced."

Liverpool wheat closed %d to 4/d lower; corn, 1%d to 1%d lower. Paris wheat ic to 1%e lower; flour unchanged to %c lower. A semi-official estimate places the vicet crop of New South Wales at 35,000,000 bu, against 24,000,000 bu last year. Roumania wheat at \$0,000,000 bu, against \$4,500,000 bu last year. Wisdom of the Kiddies. C ONGRESSMAN JAMES L. SLAY-DEN of Texas told me one at a recent banquet to prove that occasionally you can't lose the kiddles when it comes to choosing the wisest course. Connected with a religious institution in a certain city, the Congressman said. there is a baseball team composed of 12-year-old youngsters. Some time ago the team got a challenge from the cluo of a similar institution, and, wishing to encourage the boys, the minister gave them \$5, telling them to spend it for bats, balls, gloves or anything else that

would win the game.

Came the great day and the minister went down to the ball field. Glancing around, he saw the same old paraphernalia. Not a single new article was "Come here a minute, Willie," said he calling the captain. "Where are your

new bats, balls and gloves?" "We haven't got any new bats, balls and gloves," said Willie, glancing from the dominie to the opposing team. "You haven't?" exclaimed the surprised pastor. "Didn't I give you \$5 to buy them?"

"Yes, sir," replied Willie, "but you told us to spend it in any way we thought best to win the game, so we gave it to the umpire."-Philadelph Felegraph.
